Notepad Learning Tool
by mathies.ca
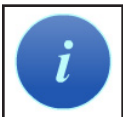

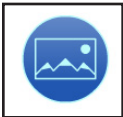

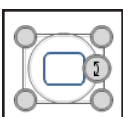

What is it?
The Notepad is a digital notepad with four options for a background - blank, grid, isometric and lined. These options can be selected as the fixed background or moveable portion of the background.

How do you use the tool?
Use the annotation panel to draw, write and type.

Learning Tool Icon	Description
Annotation – Draw	Draw freehand.
Annotation – Erase	Erase drawings created in draw mode.
Annotation – Fill	Select the fill colour and transparency for shapes and text fields. These choices then apply to all future creations.
Annotation –Lines and Dots	Choose between these options:
Annotation – Outline	Select the outline colour, thickness and transparency. These choices then apply to all future drawings, objects and text.
Annotation – Recycle	Click to remove selected annotated items from the workspace; click again to remove all annotation. Alternatively, drag items to the recycle bin to remove them.
Annotation – Selection Mode	Can be used to: • select existing annotation objects • select imported image • select tool specific objects like money, rods or grids • make an annotation drawing its own object

Learning Tool Icon	Description
Annotation – Shapes	Choose between these options:
Annotation – Text	Create a text field.
Copy	Copy the selected object(s). To select, click on an object or draw a marquee around a collection of objects.
English/French	Choose English or French version of the learning tool.
Information	Additional Information about this learning tool, including access to the support wiki and feedback form.
Insert Picture	Import pictures and select the picture if multiple copies are desired. A picture of a question or problem can be embedded within the learning tool.
Layering	Swap the background and image layers for backgrounds other than a blank one.
Reset	Press the Reset button to return the tool to its original state with default settings.
Rotate and Resize	Select an image. Drag the arrow to rotate an image. Drag a corner to resize the image. Resizing works for shapes as well.
Settings	Customize the notepad background paper, background colour, grids, and dot style. Customization is adjusted based on background paper.
