

Directions to Download, Install, and Register Geometer's Sketchpad

You will need an Authorization Code from your child's teacher/school to register the software and complete the download. The OESS Contact for each school board can provide this information.

If you have not previously installed Sketchpad Version 5,

Step 1 Go to <http://www.keycurriculum.com/gsp/download> to download and install the Sketchpad application.

Step 3 Open Sketchpad. When you are prompted to register, use the License Name and Authorization Code provided in your License Details. Use all characters and spaces as shown. We recommend that you copy and paste the License Name and Authorization Code to ensure that you register Sketchpad correctly.

Get your Authorization Code from your child's teacher or the school Board's OESS Contact.

License Details
